

MERETON TEXTILES

Zircon[®] Care Instructions

Treated with 'health guard antimicrobial agent to impart antibacterial, antifungal and antimicrobial properties. Flame retardant - total moisture barrier - stain repellent and easy to clean comfortable- hardwearing - competitively priced

PLEASE DO NOT ALLOW STAINS OR SPILLS TO SPREAD OR BE FORCED INTO THE FABRIC

This product is not intended for outdoor applications. Do not remove cushion covers and do not wash by hand or machine, nor place in a dryer. Whilst most spills can easily be removed from zircon[®] the quicker you respond to take care of any problems, the easier it will be to achieve better cleaning results.

- Blot off excess spills with paper towel.
- Do not use solvent based cleaning products.
- Using a clean sponge, wash face of fabric with plain water or mild soap solution.
- Powdered Enzyme detergent mixed with water is the preferred product.
- Customary upholstery shampoo, water-based cleaning products and mild germicidal detergents may also be used.
- For stubborn stains a liquid such as radiant, mixed with water, may be applied in a gentle manner, using a soft brush in a vertical fashion. Do not scrub.
- Please make certain that cleaning products are completely rinsed off the Fabric as failure to do so may cause a loss of repellent properties

Nb: avoid using bleach, which can fade colours, pine oil cleaners or other harsh chemicals as they will eventually harm the product. If bleach must be used, please make sure that it is in a solution of at least 3 parts water to 1-part bleach.

Please Ensure that it is completely removed. Do not use any products that contain highly Toxic tetrachloride. We recommend that you do not use any cleaning agent without first testing in a hidden place.

As dye lots may vary from batch to batch, colour matching to previous deliveries or samples cannot be guaranteed.
